

ASAD NAWAZ

AI Engineer

About Me

AI Engineer with 1 year of experience in building real-world AI solutions using GenAI, ML, and Deep Learning. Skilled in RAG systems, AI agents, NLP, and voice assistants. Experienced with tools like OpenAI APIs, Whisper, ElevenLabs, Flask, Django, and FastAPI. Focused on delivering smart, scalable, and user-friendly AI applications.

Language

- English
- Urdu

Skills

- Machine Learning
- Deep Learning
- Generative AI
- LLM Fine tuning
- RAG systems
- AI agents
- chatbots
- Voice assistants
- NLP
- Django
- Flask
- Streamlit.

Experience

AI Engineer

Global software consulting — Lahore | 05-2024 – Present

- Developed a "Restaurant Digital Waiter" system integrating RAG (Retrieval-Augmented Generation) using MongoDB vector store, OpenAI Whisper v3 (large), and real-time OpenAI APIs.
 - Built multiple AI agents to simulate thought processes and decision-making logic.
 - Created an end-to-end voice assistant using tools like pytsx3, Piper, and Whisper for seamless human-like interaction.
- Built a Review Analyzer platform to understand customer sentiments using RAG systems with PostgreSQL.
 - Designed multiple agents for processing and summarizing user reviews.
 - Integrated voice interaction using ElevenLabs to enhance user accessibility.
- Implemented a Breast Cancer Detection model achieving 93% accuracy using Logistic Regression.
 - Developed a user interface with Flask for real-time predictions.
- Worked on various AI/ML applications using Django, FastAPI, and Streamlit, delivering interactive and production-ready interfaces.

Education

Gomal University D I Khan

BSCS 2020-2024
